

My family and I listen to K-LOVE daily and have found the programming to be very uplifting and encouraging, especially in tough times. My teenage daughter and her friends love to listen to K-LOVE which represents such a positive alternative to many of the contemporary or rock stations which can be very rude and disrespectful. We have found that K-LOVE supports the values we have been instilling in our family: respect, honor, love, and above all faith in God. K-LOVE reaches hurting people and provides them with encouragement and hope and a way to reach out and receive the help they may need in a way that we have not experienced elsewhere. We respectfully request that you preserve K-LOVE in our area. Thank you for your consideration.
